SAGMHA Squad Announcement-----W.C. 2022

Following the successful IPT held in Randburg, from the 15th to 17th October, I wish to thank all of our Masters Over 60+ Hockey players and members (SAGMHA) for their attendance and participation. I also congratulate all those who have been selected for the various age group squads. Your names are listed below.

Selection to a Squad is the first phase in the final selection of the teams which need to be equipped to participate in the very competitive Masters World Cup Tournaments. Your commitment will extend to being required to attend all the regional training sessions, which will be communicated to you by the respective Team Managers and Coaches.

Your commitment will also manifest itself in your own motivation resulting in you achieving your own required level of fitness. In support of your efforts Managers and Coaches will be forwarding information to you pertaining to hockey exercises etc.

All squad members are required to attend Training Camps leading up to the World Cup.

The first camp will run from early morning on the 24th to midday 25th February 2022. This First camp will precede the IPT, planned for 25th, 26th and 27th February in Durban and will result in one additional evening's accommodation for those "out of towners".

Team Managers and Coaches, being aware of your participation in that IPT will limit fitness exercises and rather concentrate on team strategy and development. This places greater emphasis on your personal efforts to achieve the required fitness levels leading up to the Camp and the World Cup.

Your anticipated co-operation in all these aspects is appreciated. As you probably know, the build up to and during the World Cup, is a team effort required by all.

For the Love Of Hockey,
Barry Froneman
